

## **Parent Consent to Child 9 Years + changing alone**

Childs Name: \_\_\_\_\_.

Childs DOB: \_\_\_\_\_.

Class day and Time: \_\_\_\_\_.

I \_\_\_\_\_, Parent of the above-named child give my consent for them to change themselves in the indoor changing room. I give this consent based on and fully understand the following points:

- Once my child leaves the poolside, they are no longer in the care of the pool staff on duty. We cannot supervise children whilst they are getting changed after lessons nor control their exit when they leave the pool building after getting changed.
- Therefore, we strongly advise all parents allowing their children to change after lessons on their own to wait for them by the Porch where they will exit the building regardless of the child's age. I agree that I will meet my child at the exit doors to the swimming pool.
- Parents allowing their children to get changed after lessons on their own take full responsibility for their behaviour in the changing rooms after lessons as well as where they go if they exit the pool building on their own after getting changed to go home.
- By signing this form, I take full responsibility for my child's behaviour and conduct in the changing room after lessons and for their whereabouts once they leave the pool building if I am not present to collect them.
- I am aware that despite my child being given this permission there may be other parents in the changing room at the same time with their children.
- Changing rooms are gender specific to the child changing.
- Only children aged 9 years and above may be given this permission.
