

Dear Members

Quick, quick, quick ... look outside ... the sun is shining! Whatever you do ... try not to blink (or you might miss it)! Did you know the Sun is actually a star and not a planet (as most of us think). Here's a perplexing thought - because of the extreme temperature and radiation, the Sun could not harbour life, but life on earth is only possible because of the Sun's light and energy??? It would take more than 330,000 Earths to match the mass of the Sun and it is 93 million miles (150 million kms) from Earth ... so how come it can make most of us feel happier (for a couple of weeks anyway, until we all start moaning about it being too hot!) from all that distance away! And last, but definitely not least, and if you don't already use it every day, as we should ... get your sun cream on.

Thank you and well done to the vast majority of Members who are managing their Clubright account with no problems. If you are having any difficulties with Clubright, we apologise, but please don't sit in silence - we want you back using your Club! Please contact the office, where we be able to help you (or at least know where we can get help).

You must book **each child** you are bringing to a Family Swim ... including babies ... our cutest but youngest Members, (even although they are free), still count as a 'person' in the pool! There is a maximum of 20 'people' for Family Swims. We have had 22 people turn up for a session and it is disappointing to have to turn families away because they haven't booked all their children on. The category to book for the under 2's is ... drum roll ... 'Under 2 swim'!

Our first session of 2024! The summer is surely coming! This is a **FREE** music event for Members and Friends and will be performed by Rhiannon Hill (**as seen on The Voice**). Table bookings are through Ticket Source. There is no payment to book a table it just gives us an idea of numbers to expect [Book Summer Sessions](#)
