**CRY SCREENING** (Cardiac Risk in the Young <https://www.c-r-y.org.uk>) - **Saturday 20<sup>th</sup> April** **PLEASE ALL READ - THIS MIGHT BE THE MOST IMPORTANT MESSAGE WE HAVE EVER SENT!**

Competitive sport can put an athlete's heart under considerable strain, and underlying issues can easily go undiagnosed, leading to unnecessary risk and potentially serious implications, irrelevant of fitness levels. The good news however is that these abnormalities can be easily identified with a simple and painless screening process.

**Places are limited** and will be made available on a **first-come-first-served** basis so if you or your children are **aged between 14 and 35** and you would like to book a screening, please do so via the link in the letter. Feel free to share this more widely within your club and/or network so that others can take advantage of this opportunity.

The Dylan Howells Foundation (<https://dylanhowellsfoundation.org/>) is proud to be supporting this potentially life saving program.
